Copmanthorpe Heritage Trail Feedback on Sites List

The Parish Council are working towards establishing a Trail around Heritage sites in the village

With the assistance of Historic England and the South Ainsty Archaeological Society we have identified forty sites, mostly in the village but also some in the wider Parish.

We now need the help of residents to provide more information on the various properties, their histories, the people who lived and worked in them and the changes they may have undergone. We also definitely need images of them - historic and/or modern

Please use the space below to give us more information, or to suggest additional sites for possible inclusion. Alternatively you can email any feedback to copmanpc@gmail.com which is also the address for any images. We can arrange for images to be scanned if you only have prints.

Regarding Site:
Name
Phone and/or email if you are willing for us to contact you. We will not disclose your details to anybody else.
Thank you
